## DID YOU KNOW?

### **Female turkeys don't gobble.**

Only male turkeys make the well-known "gobble, gobble" sound that has come to be associated with the holiday. In fact, male turkeys are even known as "gobblers." Females make other noises, such as purring and cackling.

### **Historians have no record of turkey being eaten at the first Thanksgiving.**

The first Thanksgiving Day feast happened in 1621 with three whole days dedicated to the celebration. Although turkey was plentiful in the region and a common food source, it's likely that it wasn't actually the star of the festivities and other "fowling" were served for the occasion. Instead, "ducks, geese, and swans" are believed to have been served to the English settlers and Native Americans.

### **The first Macy's Thanksgiving Day Parade featured Central Park Zoo animals.**

The Macy's Thanksgiving Day Parade was originally called the "Macy's Christmas Parade" to kick off the holiday shopping season. Held in 1924, the first parade included monkeys, bears, camels, and elephants borrowed from the Central Park Zoo instead of the traditional character balloons we know today.
